CATERING TABLES & MOBILE BANQUETING FURNITURE

## IN JUST A FEW WORDS

La Tavola's Catering Tables are the newest addition to our action stations range.

They are:

- » Modular
- » Easy to store and transport in dedicated carry bags
- » Made with premium materials
- » Incorporate a plate holder
- » Offer countless set-up combinations

Along with the Catering Table we have added a wide range of mobile banqueting furniture with the objective to providing turnkey projects with consistent design and unparalleled functionality.

# THE CATERING TABLE

La Tavola's catering table is the blank canvas upon which a chef's creativity can be unleashed.

Interchangeable Modules allow the creation of set-ups with different purposes such as showcooking, warm and cold display, mixology and beverage service. Switch from one mode to the another in a matter of minutes.

## FOR SMOOTH OPERATIONS

The Catering Table can be assembled and deployed by two people in two minutes. It is fitted with durable casters for easy mobility, so that total disassembly isn't necessary in order to relocate it. It comes with custom-made bags for the table and with extra-durable cases for the functional modules.

Custom-made bags for table transport & storage

Custom-made cases for modules transport & storage

Disassemble to store table & functions in durable and lightweight transportation cases

Exploit the modular functions to create set-ups for cooking, warm-holding, cold-holding and beverage & mixology

2-minute assembly/disassembly time, no tools needed

Ultra durable, longlasting materials: stainless steel frame, HPL panels & tops

Catering Table

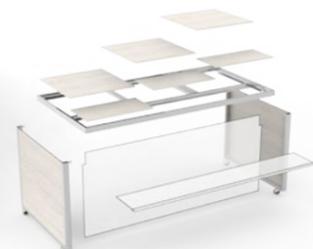

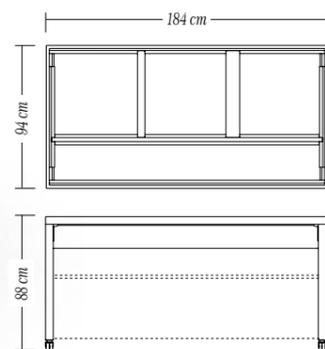

fig. 01

fig. 02

Lite Catering Table

Features

- » Matte stainless steel frame and structure: durable, hygienic, aesthetic.
- » Includes La Tavola's Dynamic Built-in Modular System®
- » Four wheels, two of which with breaking mechanism
- » HPL tops and sides available in several finishes

Plate-Holder

Simply inserting the front panel in the central (fig. 01) or in front position (fig. 02) the same Catering Table can be assembled both with or without plate-holder.

“OUR PASSION FOR CREATING BEAUTIFUL AND INNOVATIVE PRODUCTS”

THE FOUNDERS

Brothers Sergio and Giulio Sambonet, having been behind the success of other prominent industry players (the Sambonet Company, Sant’Andrea and Table Top Engineering & Design), now bring a lifetime of industry-specific experience to La Tavola.

Today, Sergio’s son Matteo represents the seventh generation of the Sambonet family still filled with passion for creating beautiful and innovative table top products.

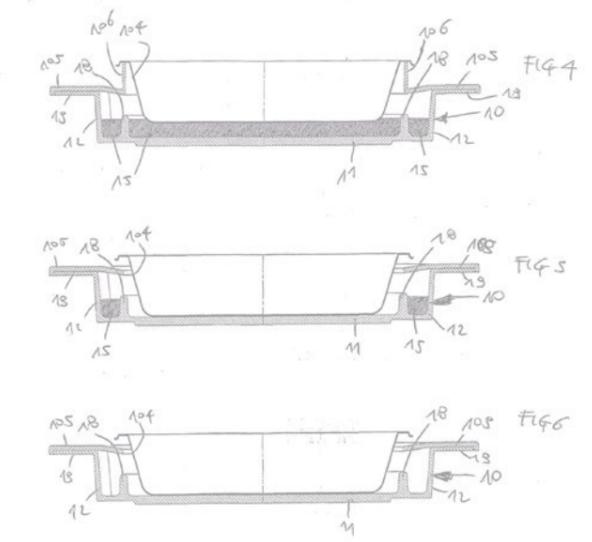

### THE TEAM

La Tavola's team includes skilled engineers, architects and artisans. We strive to achieve three objectives: to be at the forefront of innovation, the most stylish and the most thorough in service.

## SKILLED ENGINEERS, ARCHITECTS AND ARTISANS.

## ITALIAN DESIGN, TECHNOLOGY & MANUFACTURING

### REGISTERED DESIGNS

All product designs are registered by La Tavola. Any reproduction or imitation is forbidden by law.

### PATENTS

Dynamic Built-in Modular System®, Catering Table®, Magic Chafer®, Multi-purpose Tops®, Cover Oven Dry Chafer®, Dry Warmer for Induction® and Dry Chafer for Induction® are protected by international patents issued and/or currently pending.

LA TAVOLA will not hesitate to take legal action against any infringement of patents or registered designs in order to fully protect its intellectual property.

The purchasing of imitation goods may also have legal implications.

## FREQUENTLY ASKED QUESTIONS

### **Do I need special tools to operate the equipment?**

No. Well thought design makes these products easy and straightforward to use and operate, without the use of any tools.

### **Mobility is great, but it increases wear and tear- will these products withstand the test of time?**

Yes. All products are engineered to last and to withstand the intense use typical of banqueting operations. Robust wheels, stainless steel structures and edgings, HPL and ceramic tops will ensure a long and happy life.

### **I like the products, but I have storage constraints - what should I do?**

Our range of products offers fantastic storage value. Let us know what are your storage constraints and we will make sure to propose a fitting solution

### **My team is used to operating more traditional banqueting equipment- who is going to train them?**

Us, of course! La Tavola provides in on-site installation service and staff training upon request- contact us to find out more.

### **How does the Dynamic built-In System work?**

It consists of a patented mobile frame that allows the user to insert a variety of interchangeable functions of different sizes into the same table.

## ELECTRICAL WIRING AND SAFETY

### PLEASE NOTE

The installation of the electrical connections, as well as the choice of cabling components and protection should be entrusted to qualified service personnel (qualified electrician) who, so charged by the customer, will ensure that the electrical installation meets the standards and safety regulations of the country in which the product will be installed.

All electrical units and induction provided by LA TAVOLA have obtained international certification (UL, VDE, CE, etc..) as provided by the manufacturer (OEM).

For details of certification and standards of electrical loads or installation, please refer to information on individual products.

The total power (kw) requirement of each product is given by the sum of each and every electrical unit in use on the table (both built-in and freestanding electrical units).

The total power requirements of each product therefore varies in accordance to the specific combination of electrical units chosen by the operator and in use at any given time.

The qualified personnel in charge of the installation is responsible for undertaking whatever is necessary to ensure correct and safe operation of the equipment, operating staff and customers. In particular, but not limited to, the qualified personnel is responsible for:

- » ESTABLISHING THE ADEQUATE DIMENSION OF THE MAIN CABLES BASED ON THE SUM OF ELECTRICAL CURRENT DRAW OF THE ELECTRICAL UNITS IN USE.
- » BUILDING INTO THE SYSTEM A CIRCUIT BREAKER SENSITIVE ENOUGH TO ACT UPON THE FAILURE OF ONE SINGLE ELECTRICAL UNIT.
